(the “**Company**”)

Shorter settlement cycle for subscription and redemption of Shares of some Subfunds.

Shareholders in the Company are informed that effective **September 5, 2017**, the standard settlement cycles in the Canadian and U.S. securities industries for securities transactions by broker-dealers are being shortened from **three** business days (T+3) between the order and the settlement of the trades to **two** business days (T+2) between the order and the settlement of the trades with a view to also mitigate credit, market and liquidity risk (thereby reducing systemic risks) for all industry participants.

Notice is hereby given to the Shareholders of the Company that the Board of Directors of the Company (the “**Board of Directors**”) has decided that in alignment with this change, the settlement cycle for subscription and redemption of Shares of some Subfunds of the Company will need to be revised accordingly. The decision has therefore been taken to shorten the settlement cycle for a series of Subfunds by one day starting as of September 5, 2017. The previous settlement cycle of three days (T + 3) will be shortened to only two days (T + 2) while the previous settlement cycle of four days (T + 4) will be reduced to only three days (T + 3).

This adjustment will affect the Shares of the Subfunds listed in the schedule hereafter.

Luxembourg, September 5, 2017
