Notice to the Shareholders of CS Investment Funds 2 – Credit Suisse (Lux) Global Emerging Market ILC Equity Fund

Notice is hereby given to the Shareholders of **CS Investment Funds 2 – Credit Suisse (Lux) Global Emerging Market ILC Equity Fund** (for the purpose of this point the “**Subfund**”) that the Board of Directors of the Company has decided to effect a series of corporate actions leading ultimately to the liquidation of the Subfund, which can be summarised as follows:

In a first step, the Subfund will be converted into a feeder fund and will therefore invest via a subscription in kind at least 85% of its total assets in **Credit Suisse (Lux) Global Emerging Market ILC Equity Fund**, a subfund of **CS Investment Funds 5** (the “**Target Fund**”).

In a second step, immediately upon the completion of the first step, the Subfund will be liquidated in kind. As a consequence of such liquidation, the Shareholders of the Subfund will receive shares of the Target Fund and thus become shareholders of the Target Fund.

1. Amendment to the Investment Objective and Investment Policy of the Subfund

The Board of Directors of the Company has decided to amend the Investment Objective and Investment Policy of the Subfund. Pursuant to these changes, the Subfund will pursue a master-feeder strategy by investing at least 85% of its total assets in the Target Fund.

The Target Fund is a subfund of **CS Investment Funds 5**, an undertaking for collective investment in transferable securities in the legal form of an investment company with variable capital (*société d'investissement à capital variable*, SICAV), subject to Part I of the Law of December 17, 2010 on undertakings for collective investment.

The Company and CS Investment Funds 5 are both managed by Credit Suisse Fund Management S.A. and have appointed Credit Suisse (Luxembourg) S.A. as their depositary and Credit Suisse Fund Services (Luxembourg) S.A. as their central administration.

The amended Investment Objective and Principles of the Subfund and the Investment Objective and Principles of the Target Fund read as follows:

Investment Objective of the Subfund and of the Target Fund

The objective of the Subfund and of the Target Fund is to achieve the highest possible return in US dollars (Reference Currency), while taking due account of the principle of risk diversification, the security of the capital invested, and the liquidity of the invested assets.

The investment process is driven by a proprietary bottom-up methodology for the stock selection based on the Industrial Life Cycle (ILC) process powered by Credit Suisse HOLT™. The ILC process segments the universe of investable companies according to their life cycle stage and evaluates them accordingly.

While stock selection is supported by Credit Suisse HOLT™ the final investment decision remains with the Investment Manager.

Investment Principles of the Subfund

In order to realize its investment objective, the Subfund pursues a master-feeder strategy. At least 85% of the Subfund's total assets shall be invested in Credit Suisse (Lux) Global Emerging Market ILC Equity Fund, a subfund of CS Investment Funds 5 (the "Target Fund").

CS Investment Funds 5 is an undertaking for collective investment in transferable securities in the legal form of an investment company with variable capital (*société d'investissement à capital variable*, SICAV), subject to Part I of the Law of December 17, 2010. It has appointed Credit Suisse Fund Management S.A. as its management company.

The Subfund may hold up to 15% of its total net assets in liquid assets in the form of sight and time deposits with first-class financial institutions and money-market instruments which do not qualify as transferable securities and have a term to maturity not exceeding 12 months, in any convertible currency.

Investment Principles of the Target Fund

At least two-thirds of the Target Fund's assets are invested in equities and equity-type securities (American depository receipts [ADRs], global depository receipts [GDRs], profit-sharing certificates, dividend rights certificates, participation certificates, etc.) of companies which are domiciled in or carry out the bulk of their business activities in emerging countries worldwide. In this context, emerging countries and developing markets are defined as countries which are not classified by the World Bank as high income countries. In addition, high income countries which are included in an emerging market financial index of a leading service provider may also be considered as emerging countries and developing markets if deemed appropriate by the Management Company in the context of a Target Fund's investment universe.

In addition, the Target Fund may in particular invest up to one-third of its total assets, on a worldwide basis and in any currency, in sight deposits or other deposits callable as per section 1) f) of Chapter 6 "Investment Restrictions", or in money market instruments as per section 1) h) Chapter 6 "Investment Restrictions", or in other liquid instruments.

For hedging purposes and in the interest of the efficient management of the portfolio, the aforementioned investments may also be effected by way of derivatives, such as futures and options on equities, equity-type securities and equity indices of companies which are domiciled in or carry out the bulk of their business activities in emerging countries worldwide, provided the limits set out in Chapter 6, "Investment Restrictions", are observed.

In addition, the Target Fund may – subject to the investment principles set out above – invest in structured products (certificates, notes) on equities, equity-type securities, equity baskets and equity indices of companies in emerging countries worldwide that are sufficiently liquid and issued by first-class banks (or by issuers that offer investor protection comparable to that provided by first-class banks). These structured products must qualify as securities pursuant to Art. 41 of the Law of December 17, 2010. These structured products must be valued regularly and transparently on the basis of independent sources. Structured products must not entail any leverage effect. As well as satisfying the regulations on risk spreading, the equity baskets and equity indices must be sufficiently diversified.

Furthermore, to hedge currency risks and to gear its assets to one or more other currencies, the Target Fund may enter into forward foreign exchange and other currency derivatives in accordance with section 3 of Chapter 6, "Investment Restrictions" of the prospectus of the Target Fund.

The indices on which such derivatives are based shall be chosen in accordance with Art. 9 of the Grand-Ducal Decree of February 8, 2008.

Liquid assets held by this Target Fund in the form of sight and time deposits, together with debt instruments which generate interest income and UCITS which themselves invest in short-term time deposits and money market instruments may not exceed 25% of the Target Fund's net assets.
