In a first step, the Subfund will be converted into a feeder fund and will therefore invest via a subscription in kind at least 85% of its total assets in **Credit Suisse (Lux) Global High Income Fund USD**, a subfund of **CS Investment Funds 4** (the "**Target Fund**").

In a second step, immediately upon the completion of the first step, the Subfund will be liquidated in kind. As a consequence of such liquidation, the shareholders of the Subfund will receive shares of the Target Fund and thus become shareholders of the Target Fund.

1. Amendment to the Investment Objective and Investment Policy of the Subfund

The Board of Directors has decided to amend the Investment Objective and Investment Policy of the Subfund. Pursuant to these changes, the Subfund will pursue a master-feeder strategy by investing at least 85% of its total assets in the Target Fund.

The Target Fund is a subfund of CS Investment Funds 4, an undertaking for collective investment in transferable securities in the legal form of an investment company with variable capital (*société d'investissement à capital variable*, SICAV), subject to Part I of the Law of December 17, 2010.

The Company and CS Investment Funds 4 are both managed by Credit Suisse Fund Management S.A. and have appointed Credit Suisse (Luxembourg) S.A. as their depositary and Credit Suisse Fund Services (Luxembourg) S.A. as their central administration.

The amended Investment Objective and Principles of the Subfund and the Investment Objective and Principles of the Target Fund read as follows:

Investment Objective of the Subfund and of the Target Fund

The investment objective of the Subfund is to achieve the highest possible return while achieving a high and regular income in the Reference Currency and while taking due account of the principle of risk diversification, the security of the capital invested and the liquidity of the invested assets.

The Subfund is actively managed without reference to a benchmark.

Investment Principles of the Subfund

In order to realize its investment objective, the Subfund pursues a master-feeder strategy. At least 85% of the Subfund's total assets shall be invested in Credit Suisse (Lux) Global High Income Fund USD, a subfund of CS Investment Funds 4 (the "Target Fund").

CS Investment Funds 4 is an undertaking for collective investment in transferable securities in the legal form of an investment company with variable capital (société d'investissement à capital variable, SICAV), subject to Part I of the Law of December 17, 2010. It has appointed Credit Suisse Fund Management S.A. as its management company.

The Subfund may hold up to 15% of its total net assets in liquid assets in the form of sight and time deposits with first-class financial institutions and money-market instruments which do not qualify as transferable securities and have a term to maturity not exceeding 12 months, in any convertible currency.

Investment Principles of the Target Fund

The Target Fund is a mixed asset class fund with flexible allocation to the different investment categories. The weighting of the individual investment categories may vary over time according to the investment manager's market expectations so that the Target Fund may be highly concentrated in any asset class at any time although there will be a high diversification within each asset class. The Target Fund's investments will be biased towards investment categories showing above average yield.

Furthermore, depending on the views and hedging strategies of the investment manager, the flexible allocation might reflect a long or short exposure within an asset class, whereas it is not the intention that a single asset class shows an overall net short exposure.

To achieve its investment objective, the Target Fund shall invest its net assets worldwide (including emerging countries) directly or indirectly, subject to the below mentioned investment principles, in any of the instruments listed in Chapter 6, "Investment Restrictions" of the prospectus of the Target Fund, irrespective of currency but in accordance with the principle of risk diversification issued by public, semi-private and private issuers, irrespective of their industry or sector affiliation. The above-mentioned securities may be listed on securities exchanges or traded on other regulated markets that operate regularly and are recognized and open to the public. The exchanges and other regulated markets must comply with requirements of article 41 of the Law of December 17, 2010. The instruments into which the Target Fund shall invest may include, but are not limited to, equities, other equity-type securities (American depository receipts [ADRs], global depository receipts [GDRs], profit-sharing certificates, dividend rights certificates, participation certificates of real estate companies and closed-end real estate investment trusts (REITs) or in debt instruments, high yield debt securities, bonds, notes, and similar fixed interest or floating-rate securities (including securities issued on a discount basis) from issuers domiciled worldwide, as well as in shares or units of other UCITS and/or other UCIs pursuant to section 1) paragraph e) of Chapter 6, "Investment Restrictions" of the prospectus of the Target Fund that have an investment policy consistent with the Target Fund's investment policy.

Asset Allocation of the Target Fund

The total exposure of the Target Fund to the asset classes listed below, whether direct or indirect, must remain within the limits specified below (in % of the Target Fund's net assets):

Asset Class	Range
Fixed Income Securities and other debt instruments	10%–90%
Convertibles	0%–20%
Equities and other equity-type securities	10%–90%
Commodities	0%–15%

In compliance with the provisions of Chapter 6, "Investment Restrictions" of the prospectus of the Target Fund, the exposure to commodities (including the individual categories of commodities) will be achieved indirectly through the use of undertakings for collective investment and financial derivative instruments (such as total return swaps, options and futures).
