**Part II Organizational Action** Attach additional statements if needed. See back of form for additional questions.

**14** Describe the organizational action and, if applicable, the date of the action or the date against which shareholders' ownership is measured for the action ▶ Credit Suisse Asset Management Income Fund, Inc. (the "Fund") pays dividends to its shareholders on a monthly basis in the per share amounts set forth on the attached schedule. In January 2017, the Fund determined that its earnings and profits for the fiscal year ending December 31, 2016 were insufficient to characterize the full amount of those distributions to shareholders as dividends under IRC section 301(c). As a result of this determination, a portion of those distributions has been characterized as a return of capital.

**15** Describe the quantitative effect of the organizational action on the basis of the security in the hands of a U.S. taxpayer as an adjustment per share or as a percentage of old basis ▶ See attachment for the per share amounts identified as returns of capital. These amounts will reduce a shareholder's adjusted tax basis in its shares of the Fund. To the extent the return of capital exceeds a shareholder's adjusted tax basis in its shares of the Fund, such excess will be recognized as a capital gain.

**16** Describe the calculation of the change in basis and the data that supports the calculation, such as the market values of securities and the valuation dates ▶ See attachment.

**Part II Organizational Action** (continued)

17 List the applicable Internal Revenue Code section(s) and subsection(s) upon which the tax treatment is based ▶ IRC Section 301(c)(2), Section 316(a), Section 316(b)(4)

**Effect on Cost Basis**

The adjusted tax basis of the shareholder's shares is decreased by the per share returns of capital shown above, multiplied by the number of shares of the Fund the shareholder owns. To the extent the amounts identified as returns of capital exceed a shareholder's adjusted tax basis in its Fund shares, such excess would be recognized as capital gain from the sale or exchange of property.

Shareholders should consult with their tax advisors for more information.
